

SAFETY PRECAUTIONS IN THE MANUFACTURING INDUSTRY

Making safety a top priority in your manufacturing facility is pertinent to the wellbeing of your employees and your company.

INJURY PREVENTION CHECKLIST

- ✓ Require employees to wear safety gear such as protective goggles and clothing at their station.
- ✓ Prohibit loose jewelry, hair, and clothing to be worn around the machines.
- ✓ Make instruction manuals for machines easily available to all employees.
- ✓ Keep all tools and equipment in their respective storage spaces.
- ✓ Confirm machinery is turned off when not in use and that safety guards are in place.
- ✓ Keep workstations clean, spacious, and properly lit.
